Human-Aware Work Systems

Predictive Safety Intelligence for High-Risk Industries

Visual Systems Designer Handover Brief

1. Purpose & Strategic Context

This brief provides the foundation for visualizing the operational and governance system of Human-Aware Work Systems. Its goal is to translate our Leadership Framework and RACI Blueprint into a clear, authoritative visual artifact.

2. Core Narrative

HAWS is pioneering predictive safety intelligence. The visuals must express both rigor and momentum: a rocket ship powered by an impeccably engineered engine.

3. Brand & Visual Specifications

Primary Palette: Deep Navy (#0A192F), Warm Tan (#D2B48C), Gold Foil (#B8860B), Off-White (#F5F5F5), Signal Green (#2E8B57). Typography: Headlines - Inter or Manrope; Body Text - Lora or Merriweather.

4. Review & Delivery Checklist

✓ Confirm adherence to color palette. ✓ Verify font usage and hierarchy. ✓ Ensure RACI roles are visually clear. ✓ Include layered source files. ✓ Confirm all diagrams align with the Leadership Framework and RACI Blueprint.
